

Dinosaur Park

Dinosaur fun!

Song List...

Full credit details shown on last page

Dinosaur Park
Baby Dinosaurs
I'd Like Dinosaurs
When You Think Of A Dinosaur
One Dinosaur Skipping Along
Dinosaurs
Dinosaurs Ruled Over Everything
Five Pterosaurs
They Lived On Earth A Long Time Ago
A Happy Dinosaur
I Don't Know Why?
Ride On A Dinosaur
The Dinosaurs Plodded On The Ground
Let's Hear It For The Dinosaurs
Ten Little Dinosaurs
They Just Disappeared
Ten Green Dinosaurs
What's The Matter With The Dinosaur?
I'm Running Away From A Big Dinosaur
I'll Never Know

Dinosaur Park

Let's all go to the dinosaur park, there's such a lot to see
Let's all go to the dinosaur park, so come along with me
We'll see a Tyrannosaurus, Stenonychosaurus, Velociraptor and a Triceratops
Let's all go to the dinosaur park 'cause there's ever such a lot to see

Let's all go to the dinosaur park, we might get a surprise
Let's all go to the dinosaur park, you won't believe your eyes
We'll see a Rhamphorhynchus, Pteranodon,
Ankylosaurus and a Dimorphodon
Let's all go to the dinosaur park 'cause we're gonna get a big surprise

Let's all go to the dinosaur park, we'll learn some history
Let's all go to the dinosaur park, we'll learn a lot, you'll see
We'll learn all about prehistoric times, fossils and bones that were left behind
Let's all go to the dinosaur park 'cause there's lots and lots of history

We'll see a Stegosaurus, Iguanodon, Oviraptor and a Volcanodon
Let's all go to the dinosaur park 'cause there's ever such a lot to see

Let's all go to the dinosaur park for some prehistoric history
Let's all go to the dinosaur park 'cause there's ever such a lot to see

Baby Dinosaurs

(chorus)

There is a mummy dinosaur and a daddy dinosaur,
and lots of little baby dinosaurs
They were running along and skipping and jumping,
lots of little baby dinosaurs

Before they were born they were tiny little eggs,
and then they hatched with a crack
Then they all cried out with a funny little squeak,
then they all tried hard to climb back

(chorus)

After they were hatched they were hungry, cold and cross,
and gave a little cry to mum and dad
Then they got some food and were in a better mood,
then they weren't feeling quite so bad

(chorus - repeat)

Lots of little baby dinosaurs
Lots of little baby dinosaurs

I'd Like Dinosaurs

(chorus)

I'd like dinosaurs, if they weren't so big and bad
I'd like dinosaurs, if they didn't roar so loud
I'd like dinosaurs, I could tell you but I won't
I'd like dinosaurs, but I don't

If they were little, if they were small
If they were little, and not so very tall
If they were pretty, and not so ugly-fied
I might like them if I weren't so petrified

(chorus)

If they were furry, and cuddly as well
If they were friendly, I'm sure that we could tell
If they were nicer, and not so scarified
I might like them if I weren't so petrified

(chorus - repeat)

When You Think Of A Dinosaur

When you think of a dinosaur,
I bet that you think that it's scary
When you think of a dinosaur,
I bet you don't think that it's hairy
Now some were ever so big,
and some were ever so small
Some had horns and some had claws,
and some had very sharp teeth and all

When you think of a dinosaur,
I bet that you think that it's ugly
When you think of a dinosaur,
I bet you don't think that it's lovely
Now some were ever so loud,
and some were ever so quiet
Some ate meat and some ate veg,
and some ate everything in sight

When you think of a dinosaur,
I bet that you think that it's clumsy
When you think of a dinosaur,
I bet you don't think that it's hungry
Now some were ever so nice,
and some were ever so bad
Some were green and some were not,
and some were ever so booming loud

When you think of a dinosaur,
I bet that you think that it's scary
When you think of a dinosaur,
I bet you don't think that it's hairy

I bet that you think that it's scary

One Dinosaur Skipping Along

One dinosaur skipping along, one dinosaur singing a song
Another dinosaur came along, that's two dinosaurs skipping along

Two dinosaurs skipping along, two dinosaurs singing a song
Another dinosaur came along, that's three dinosaurs skipping along

Three dinosaurs skipping along, three dinosaurs singing a song
Another dinosaur came along, that's four dinosaurs skipping along

Four dinosaurs skipping along, four dinosaurs singing a song
Another dinosaur came along, that's five dinosaurs skipping along

Five dinosaurs skipping along, five dinosaurs singing a song
Another dinosaur came along, that's six dinosaurs skipping along

Six dinosaurs skipping along, six dinosaurs singing a song
Another dinosaur came along, that's seven dinosaurs skipping along

Seven dinosaurs skipping along, seven dinosaurs singing a song
Another dinosaur came along, that's eight dinosaurs skipping along!

Eight dinosaurs skipping along, eight dinosaurs singing a song
Another dinosaur came along, that's nine dinosaurs skipping along

Nine dinosaurs skipping along, nine dinosaurs singing a song
Another dinosaur came along, that's ten dinosaurs skipping along

Dinosaurs

A very long time ago, the strangest creatures walked the earth, dinosaurs
They had the funniest names you ever heard,
and that's the truth of it, dinosaurs
Some of them were very small and some of them were very tall
And some of them were not so very nice
But all of them lived long ago and that is why we'll never know, dinosaurs

You'll never see one, you'll never talk to one, you'll never see a dinosaur
You'll never stroke one, you'll never ride on one, you'll never see a dinosaur

Two hundred and fifty million years ago there lived some creatures called,
dinosaurs
They lived for a hundred and sixty five million years, dinosaurs
Some of them would like to eat everything except for meat
And some of them would like to eat each other
But now they're all extinct you see and that is why you'll never see,
dinosaurs

You'll never see one, you'll never talk to one, you'll never see a dinosaur
You'll never stroke one, you'll never ride on one, you'll never see a dinosaur

You'll never see one, you'll never talk to one, you'll never see a dinosaur
You'll never stroke one, you'll never ride on one, you'll never see a dinosaur

Dinosaurs Ruled Over Everything

Hundreds of millions of years ago, the dinosaurs were king
They lived on the earth for millions of years and ruled over everything

Dinosaurs, dinosaurs, dinosaurs were king
Dinosaurs, dinosaurs, ruled over everything

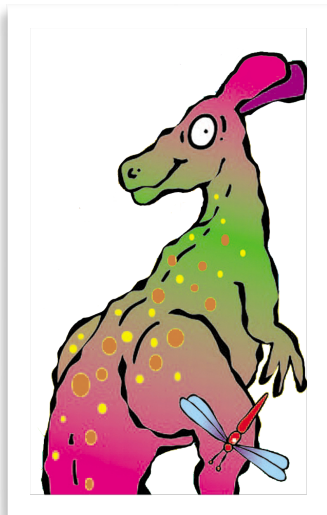

Hundreds of millions of years ago, the pterosaurs ruled the sky
They soared and swooped and dived and looped and used their wings to fly

Pterosaurs, pterosaurs, pterosaurs ruled the sky
Pterosaurs, pterosaurs, up on a wing they fly

Hundreds of millions of years ago, the plesiosaurs ruled the ocean
They used to swim and splash around and cause quite a big commotion

Plesiosaurs, plesiosaurs, plesiosaurs ruled the ocean
Plesiosaurs, plesiosaurs, caused quite a big commotion

Dinosaurs, dinosaurs, dinosaurs were king
Dinosaurs, dinosaurs, ruled over everything

Five Pterosaurs

Five pterosaurs, flying so high, high in the sky, up so very high
Five pterosaurs, flying round and round,
then one swooped down to the ground

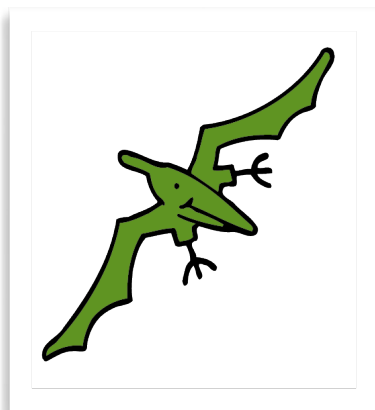

Four pterosaurs, flying so high, high in the sky, up so very high
Four pterosaurs, flying round and round,
then one swooped down to the ground

Three pterosaurs, flying so high, high in the sky, up so very high
Three pterosaurs, flying round and round,
then one swooped down to the ground

Two pterosaurs, flying so high, high in the sky, up so very high
Two pterosaurs, flying round and round,
then one swooped down to the ground

One pterosaur, flying so high, high in the sky, up so very high
One pterosaur, flying round and round,
then one swooped down to the ground

No pterosaurs, flying so high, high in the sky, up so very high
No pterosaurs, flying round and round, no more pterosaurs flying around

They Lived On Earth A Long Time Ago

They lived on earth a long time ago
They lived on earth and nobody knows
No one's ever laid their eyes upon a dinosaur

Some were big and ferocious and all
Some were big and not very tall
But no one's ever laid their eyes upon a dinosaur

Dinosaurs, dinosaurs
Dinosaurs, dinosaurs

They lived on earth a long time ago
They lived on earth and nobody knows
No-one's ever laid their eyes upon a dinosaur

Dinosaurs, dinosaurs
Dinosaurs, dinosaurs

Dinosaurs, dinosaurs
Dinosaurs, dinosaurs

Dinosaurs, dinosaurs
Dinosaurs, dinosaurs

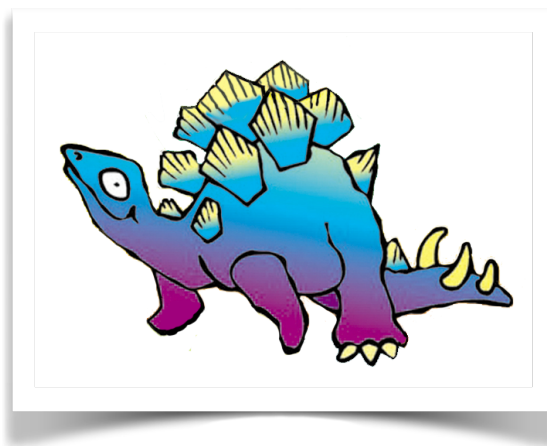

Dinosaurs, dinosaurs
Dinosaurs, dinosaurs

A Happy Dinosaur

If dinosaurs were here today, I think that they would like to play
In the park and on the swings and all the other playground things
And when the night time comes around, we'll fall asleep, not make a sound
We'd cuddle up and you'd see for sure, a happy dinosaur

Dinosaur, dinosaur, a happy dinosaur
Dinosaur, dinosaur, a happy dinosaur

Dinosaur, dinosaur, a happy dinosaur
Dinosaur, dinosaur, a happy dinosaur

I Don't Know Why?

I don't know why the dinosaurs died, but I do know it makes you think
I don't know why the dinosaurs died and that means they're all extinct
They roamed the earth for one hundred and sixty five million years
Then all of a sudden, just like that, most of them disappeared
Nobody knows why the dinosaurs died, but it really makes you think
That's why we say that the dinosaurs are extinct

Perhaps it was a meteor that came from out of space
Perhaps it was a climate change that put them out of place
They might have froze but nobody knows 'cause they just disappeared
One day we might find out why they're not here

I don't know why the dinosaurs died, but I do know it makes you think
I don't know why the dinosaurs died and that means they're all extinct
They roamed the earth for one hundred and sixty five million years
Then all of a sudden, just like that, most of them disappeared
Nobody knows why the dinosaurs died, but it really makes you think
That's why we say that the dinosaurs are extinct

?

Ride On A Dinosaur

I don't want to ride a horse or learn to jump
I don't want to ride upon a camel's hump
I don't want to ride a tiger that's for sure
I just want a ride on a dinosaur!

I don't want to ride a donkey, eeh haw eeh
I don't want to ride a dolphin in the sea
I don't want to ride a lion that's for sure
I just want a ride on a dinosaur

(chorus)

Riding up high on a dinosaur
When it's all over we will shout for more
Riding up high on a dinosaur
Let's climb aboard a dinosaur

(chorus)

I don't want to ride a horse or learn to jump
I don't want to ride upon a camel's hump
I don't want to ride a tiger that's for sure
I just want a ride on a dinosaur

(chorus)

Let's climb aboard a dinosaur

The Dinosaurs Plodded On The Ground

The dinosaurs plodded on the ground and roared and roared
The dinosaurs plodded on the ground and roared and roared
The dinosaurs plodded on the ground and made a loud and terrible sound
And they all lived many millions of years ago

The pterosaurs flew up in the sky and soared and soared
The pterosaurs flew up in the sky and soared and soared
The pterosaurs flew up in the sky the winged lizards could soar so high
And they all lived many millions of years ago

The plesiosaurs lived in the sea and swam and swam
The plesiosaurs lived in the sea and swam and swam
The plesiosaurs lived in the sea, the strangest creatures that you could see
And they all lived many millions of years ago

The dinosaurs are no longer here today, today
The dinosaurs are no longer here today, today
The dinosaurs are no longer here, they became extinct and disappeared
And they all lived many millions of years ago
And they all lived many millions of years ago
And they all lived many millions of years ago
And they all lived many millions of years ago

Let's Hear It For The Dinosaurs

A very, very, very long time ago
Lived lots of creatures you wouldn't want to know
And the fossils that they left behind all show, we think
That they all died out and became extinct

(chorus)

Let's hear it for the dinosaurs, let's hear it for the dinosaurs
Let's hear it for the dinosaurs, let's hear it for the dinosaurs
Dinosaurs, dinosaurs, dinosaurs, let's hear it for the dinosaurs

A very, very, long time ago it's true
They all died out, but left us a clue
Like the bones that we call fossils that they left behind
Scattered everywhere for us to find

(chorus)

Dinosaurs, dinosaurs, dinosaurs, let's hear it for the dinosaurs
Dinosaurs, dinosaurs, dinosaurs, let's hear it for the dinosaurs

Ten Little Dinosaurs

One little, two little, three little dinosaurs
Four little, five little, six little dinosaurs
Seven little, eight little, nine little dinosaurs
Ten little dinosaur eggs

I see...

One little, two little, three little dinosaurs
Four little, five little, six little dinosaurs
Seven little, eight little, nine little dinosaurs
Ten little dinosaur heads

I see...

One bigger, two bigger, three bigger dinosaurs
Four bigger, five bigger, six bigger dinosaurs
Seven bigger, eight bigger, nine bigger dinosaurs
Ten bigger dinosaurs now

I see...

One massive, two massive, three massive dinosaurs
Four massive, five massive, six massive dinosaurs
Seven massive, eight massive, nine massive dinosaurs
Ten massive dinosaurs, wow!

(repeat)

They Just Disappeared

A long, long time ago, our scientists can show
Some strange and scary creatures roamed and soared
They left their bones behind, for scientists to find
And that is how we know about dinosaurs

(chorus)

They lived on earth two hundred and fifty million years ago
They inhabited the earth for one hundred and sixty five million years
After all that time, it's hard to believe that they would ever go
And then they just disappeared

Their bones were in the ground, that's how the scientists found
That they turned to stone and then they realised
The bones that they had found, buried all around
Over millions of years had fossilised

(chorus x 2)

And then, they just disappeared

Ten Green Dinosaurs

Ten green dinosaurs sitting on the wall
Ten green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be nine green dinosaurs sitting on the wall

Nine green dinosaurs sitting on the wall
Nine green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be eight green dinosaurs sitting on the wall

Eight green dinosaurs sitting on the wall
Eight green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be seven green dinosaurs sitting on the wall

Seven green dinosaurs sitting on the wall
Seven green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be six green dinosaurs sitting on the wall

Six green dinosaurs sitting on the wall
Six green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be five green dinosaurs sitting on the wall

Five green dinosaurs sitting on the wall
Five green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be four green dinosaurs sitting on the wall

Four green dinosaurs sitting on the wall
Four green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be three green dinosaurs sitting on the wall

Three green dinosaurs sitting on the wall
Three green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be two green dinosaurs sitting on the wall

Two green dinosaurs sitting on the wall
Two green dinosaurs sitting on the wall
And if one green dinosaur should accidentally fall
There'd be one green dinosaur sitting on the wall

One green dinosaur sitting on the wall
One green dinosaur sitting on the wall
And if that green dinosaur should accidentally fall
There'd be no green dinosaurs sitting on the wall

What's The Matter With The Dinosaur?

(chorus)

What's the matter with the dinosaur?

Why's it knocking upon my door?

I think it's gonna make a big loud roar

What's the matter with the dinosaur?

Doyathinkysawus, when he looked around?

Doyathinkyheardus, when we made that sound?

Doyathinkysawus, when he blinked his eye?

Doyathinkyheardus, when we started to cry?

(chorus)

Doyathinkysawus, when he sneaked a look?

Doyathinkyheardus, when we dropped that book?

Doyathinkysawus, when he nodded his head?

Doyathinkyheardus, when we crept up to bed?

(chorus - repeat)

What's the matter with the dinosaur?

I'm Running Away From A Big Dinosaur

I'm running away from a big dinosaur
It feels like a race but I can't be sure
I don't think he wants to beat me
I think he just wants to eat me!
That's why I'm running away from a big dinosaur
It feels like a dream, but I couldn't be sure
But then I wake up in my bed, and find it's all inside my head

Sometimes when you're in bed at night and when you're fast asleep
You think of all the things you like and memories that you keep
But sometimes other scary things can creep inside your dreams
And when you're fast asleep they look so very real it seems

That's why, I'm running away from a big dinosaur
It feels like a race but I can't be sure
I don't think he wants to beat me
I think he just wants to eat me!
That's why I'm running away from a big dinosaur
It feels like a dream, but I couldn't be sure
But then I wake up in my bed, and find it's all inside my head

That's why, I'm running away from a big dinosaur
It feels like a race but I can't be sure
I don't think he wants to beat me
I think he just wants to eat me!
That's why I'm running away from a big dinosaur
It feels like a dream, but I couldn't be sure
But then I wake up in my bed, and find it's all inside my head

I'll Never Know

I'll never know if a dinosaur can run and jump and yell and roar
I'll never know if a dinosaur can swim or touch its knees
I'll never know if a dinosaur can ride a bike or paint and draw
I'll never know if a dinosaur can eat up all its peas

I'll never, never, never know
I guess I'll never, ever know
I'll never, never, never know
I guess I'll never, ever know

I'll never know if a dinosaur can clean the house or wash the floor
I'll never know if a dinosaur can touch or nod its head
I'll never know if a dinosaur can drive a car or shut the door
I'll never know if a dinosaur can tuck me up in bed

I'll never, never, never know
I guess I'll never, ever know
I'll never, never, never know
I guess I'll never, ever know

I'll never know if a dinosaur can run and jump and yell and roar
I'll never know if a dinosaur can swim or touch its knees
I'll never know if a dinosaur can ride a bike or paint and draw
I'll never know if a dinosaur can eat up all its peas

I'll never, never, never know
I guess I'll never, ever know
I'll never, never, never know
I guess I'll never, ever know
